

JACK DE LA MOTTE

COMPUTER SCIENCE STUDENT @ CAL POLY

(and a fan of taking up excessive whiteboard space to diagram problems)

I am a highly driven student who is passionate about finding computer science applications in the real world. Software provides a unique way of approaching problems and my goal is to find myself at the intersection of problem solving and creating the best possible user experience.

EXPERIENCE

CLUB MEMBER

@ CAL POLY UX

JAN '20 - PRESENT

Learning about user experience design concepts alongside an interdisciplinary team that completely redesigned the Cal Poly iOS application.

Conducted thorough user research with our app prototype in order to help team members identify features that could be improved.

SOFTWARE DEV TEAM MENTEE

@ CRU CAL POLY

AUG '18 - MAY '19

Explored web development practices by improving the accessibility of the Cru Central Coast website with the help of software engineer mentors.

FRONT DESK STAFF

@ ROSE CITY FUTSAL

JUNE '18 - SEPT '19

Oversaw crucial facility operations and connected clients with leagues, training programs, and teams that fit their goals.

SOFTWARE ENGINEERING INTERN

@ YOUR COMPANY!

SUMMER 2021

Looking for an energetic, ready-to-learn, self-motivated intern this summer? Let's get in touch!
